

Interactive comment on “Cloud condensation nuclei in pristine tropical rainforest air of Amazonia: size-resolved measurements and modeling of atmospheric aerosol composition and CCN activity” by S. S. Gunthe et al.

Anonymous Referee #1

Received and published: 31 March 2009

This post is to correct an earlier comment about the order of the figures not being sequential. The order is in fact fine, but the article references 27 figures (including supplemental figures). Some recommendations to improve the synthesis of the data and reduce the number of figures were given in the previous review.
