

## ***Interactive comment on “Mobile mini-DOAS measurement of the emission of NO<sub>2</sub> and HCHO from Mexico City” by M. Johansson et al.***

**M. Johansson et al.**

Received and published: 14 April 2009

### General Comments

We thank the reviewer for his positive response to our paper.

### Technical Comments

The small grammatical error pointed out by the reviewer has been corrected.

The label *incoming sunlight* in figure 1 has been replaced with the more clear *incoming scattered sunlight*. The term *skylight* which was suggested by the reviewer is in our opinion less clear than *incoming scattered sunlight*.
