

***Interactive comment on* “Comment on
“Classification of aerosol properties derived from
AERONET direct sun data” by G. P. Gobbi et
al. (2007)” by N. T. O’Neill**

Anonymous Referee #2

Received and published: 16 January 2009

The comment by O’Neill outlines the analytical form of the method for aerosol classification from sun photometer data by Gobbi et al. It is a useful contribution to the problems of aerosol retrieval.
