

Co-Editor Decision: Reconsider after minor revisions (Editor review) (09 Jun 2017) by Zhanqing Li

Comments to the Author:

I am satisfied with your responses to the comments. However, the paper needs professional editing to assure the use of more standard English to eliminate such terms as "for > 10 nm new particles" (may say "new particles of radius greater than 10 nm"), as well as a few grammar errors. Some shaded texts should also be cleaned. A very careful check of references is also necessary.

Response:

Dear Editor,

According to your comments, all references have been double-checked through the manuscript and the language has been edited using a profession service. We are resubmitting the revised manuscript in a clean version. We hope that the revision can meet the high standard for publishing in your Journal. Thank you again.

Your Sincerely,

Xiaohong Yao
