

Comment: Congratulations on your manuscript. Prior to publication, please make sure that the numbers for fraction non-fossil fuel for SOC are consistent in lines 789 and 873. In one location it is $66 \pm 10\%$ and in the other it is $60 \pm 10\%$.

We appreciate Prof. Eleanor Browne for her carefully review.
Sorry for making mistake on this number which should be $66 \pm 10\%$. We have revised it in the updated manuscript.
