

Urbino, September 6th, 2016

Dear Prof Martyn Chipperfield,

Following your suggestions we included in the text (Section 3.1 Time Series Statistical Analysis) further information, previously given in response to referees only, concerning the use of the GC-MS-Medusa data at JFJ and the dip in the CMN time series (both shown in Figure 2).

Hoping that this revision will satisfy your request and thanking you for your help, we send our best wishes.

Michela Maione
