### General Comment

I found that the authors have improved their manuscript based on my comment and suggestion before.

### Detail Comment

1. There are several abbreviations in the main text still do not have full name e.g. NF, NW, SE, SW (Line 259-260), MILARGO (Line 263).
2. Figure 1. I suggest the authors include Mexico map in insert and show which part of Mexico represent the study location (sampling stations).
