

***Interactive comment on “Integrated studies of a regional ozone pollution synthetically affected by subtropical high and typhoon system in the Yangtze River Delta region, China” by Lei Shu et al.***

**Anonymous Referee #2**

Received and published: 29 August 2016

The paper studied a regional ozone pollution synthetically affected by subtropical high and typhoon system in the Yangtze River Delta region, China. The o3 pollution has been raised wide attention, and it's an interesting investigation and the manuscript is well written, the discussions are comprehensive, and the results are described clearly. I think that this paper deserves to be published in ACP.
