This short comment addresses a need for clarification on the use of “annual average” in the text. As stated in the text and captions for Tables 2-5 in the manuscript, the annual averages (and standard deviations) were computed for each site based on a single year of data – collected in 2015 – using the one hour observations. We have further clarified the captions for Tables 2-5 to make sure this point is clear. Additionally, we modified the text on P. 11 (line 6) to clearly state that the annual averages are computed based on one hour observations collected during 2015. To prevent any confusion, we now report

only the annual average in this section of the text. This short comment also noted a few other minor issues with regards to grammar and the equations. We thank the reviewer for these comments, which helped improve overall clarity of the manuscript. All changes have been addressed in our revised manuscript.
