Received and published: 23 May 2016

Thank-you for reading the paper and submitting one of the best reviews I've ever received. I would be happy to include all your suggestions to improve the understanding of the article.

Page 8, (now line 19) has been changed to read: "The peak in modelled isoprene is over-predicted by factors between 2 and 6, which will have an effect through the chemistry dependent on oxidant availability. The modelled isoprene profile captures the observed peak at 10am..."
