Received and published: 26 April 2017

Please provide responses to reviewers and a revised manuscript showing alterations in the standard way as for ACP/AMT. In your responses, please pay particular attention to the reviewers' comments regarding similarities to the Kanitz et al. 2014 paper, and scientific advances presented in this work compared to what is already published.

Interactive comment on Atmos. Chem. Phys. Discuss., doi:10.5194/acp-2017-130, 2017.
