I am happy to accept your paper (subject to technical corrections), very nice work!

However, I noticed that the references given on page 2, line 22 (Sodemann and Zubler, 2010) and page 3, line 17 (Stohl and James, 2004, 2005; Sodemann et al., 2008) are missing from the list of references. I suggest you also check all other references once more and add the missing ones.

A: Good news! Thanks for the encouragement and the suggestions also.

We have added the missing references (P12, L30-P13, L5). All the other references have also been checked for missing and format.
