

**Editor technical corrections:**

*Dear Authors:*

*Thank you for your detailed responses to the referee comments. I accept this manuscript for publication subject to the following technical corrections.*

*1) Page 20 line 22. I am assuming that Gallimore et al. submitted should instead be Gallimore et al. 2017.*

The reference now reads Gallimore et al., (2017).

*2) In Figures 1 and S3 please correct the structures to COO (limonaketone branch in Fig. 1).*

We have corrected these structures.
