RE: acp-2017-410

Dear Prof. Su

Enclosed please find a revised manuscript #acp-2017-410, "**Molecular distribution and compound-specific stable carbon isotopic composition of dicarboxylic acids, oxocarboxylic acids, and α -dicarbonyls in PM_{2.5} from Beijing, China**" by Wanyu Zhao et al.

Here, we have carefully revised the manuscript based on all of the comments and suggestions from three referees to assure the validity of the results and interpretation. Please find the details in the author's responses to the reviewers and in the revised manuscript. We believe that the revised manuscript is now ready to be accepted for publication in *Atmospheric Chemistry and Physics* as a research article. Thank you very much for your kind consideration!

Sincerely yours,

Pingqing Fu, Ph.D
