### Response to Referee #2

We thank the referee for all the valuable comments that have improved this manuscript. As a result, more information and analyses have been included. Additionally, following the referee's suggestion, the writing has been improved and the grammar mistakes have been corrected. Please see our point-by-point replies to the specific comments in the supplement document, with the referee's comments in black colour and our corresponding replies colored in blue.

Additionally, a new version of the manuscript, with both referee's suggestions, has been uploaded.
