Received and published: 21 March 2017

In my reply (March 21, 2017) to the comment by Referee 1, the sentence relating to equation (A1) is erratum. Please revise it as follows.

(before revision) Residual mean square of values of K_H was 1.19×10^{-8} for equation (A1) and 5.29×10^{-7} for equation (A3).

(after revision) Residual mean square of values of K_H was 1.19×10^{-6} for equation (A1) and 5.29×10^{-7} for equation (A3).
