

Interactive comment on “Contributions of natural and anthropogenic sources to ambient ammonia in the Athabasca Oil Sands and north-western Canada” by Cynthia Whaley et al.

Cynthia Whaley et al.

cynthia.whaley@canada.ca

Received and published: 20 December 2017

Dear editor and both reviewers, I have responded to all reviewers comments, which included a revised manuscript (attached to reviewer 1 responses), which I referred to in both of my responses when I stated which line numbers contain the additional or modified text. Here I would also like to attach the track-changes version of the revised manuscript (created via latexdiff), so that you may more easily see the revisions. Note, however, that the line numbers in the track-changes version do **not** correspond to the line numbers in my responses. Thank you.
