Received and published: 13 December 2017

The authors would like to thank the reviewer for the interesting and at the same time substantial comments and suggestions. We tried, and did our best, to incorporate the most suitable proposed changes and corrections in the revised manuscript, aiming at improving the presented paper. Following, you will find our responses, one by one to the comments addressed, in the uploaded supplement pdf file.

Kind regards, Proestakis Emmanouil
