Interactive comment on "Estimating Surface Carbon Fluxes Based on a Local Ensemble Transform Kalman Filter with a Short Assimilation Window and a Long Observation Window" *by* Yun Liu et al.

C. Gerbig (Editor)

cgerbig@bgc-jena.mpg.de

This submission has been accepted for the discussion phase for ACP, but I was approach by one of the reviewers suggesting that it would much better fit in GMD. I followed this suggestion, therefore this discussion phase was closed, and the authors can register the manuscript for GMD.
