Received and published: 6 November 2017

I just wanted to flag a previous study, still under review, but very relevant for this study: Kleinschmitt, C., O. Boucher, and U. Platt, Sensitivity of the radiative forcing by stratospheric sulfur geoengineering to the amount and strategy of the SO<sub>2</sub> injection studied with the LMDZ-S3A model, *Atmospheric Chemistry and Physics Discussions*, doi:10.5194/acp-2017-722, in review, 2017.
