Supplement for Satellite Data Reveals a Common Combustion Emission Pathway for Major Cities in China

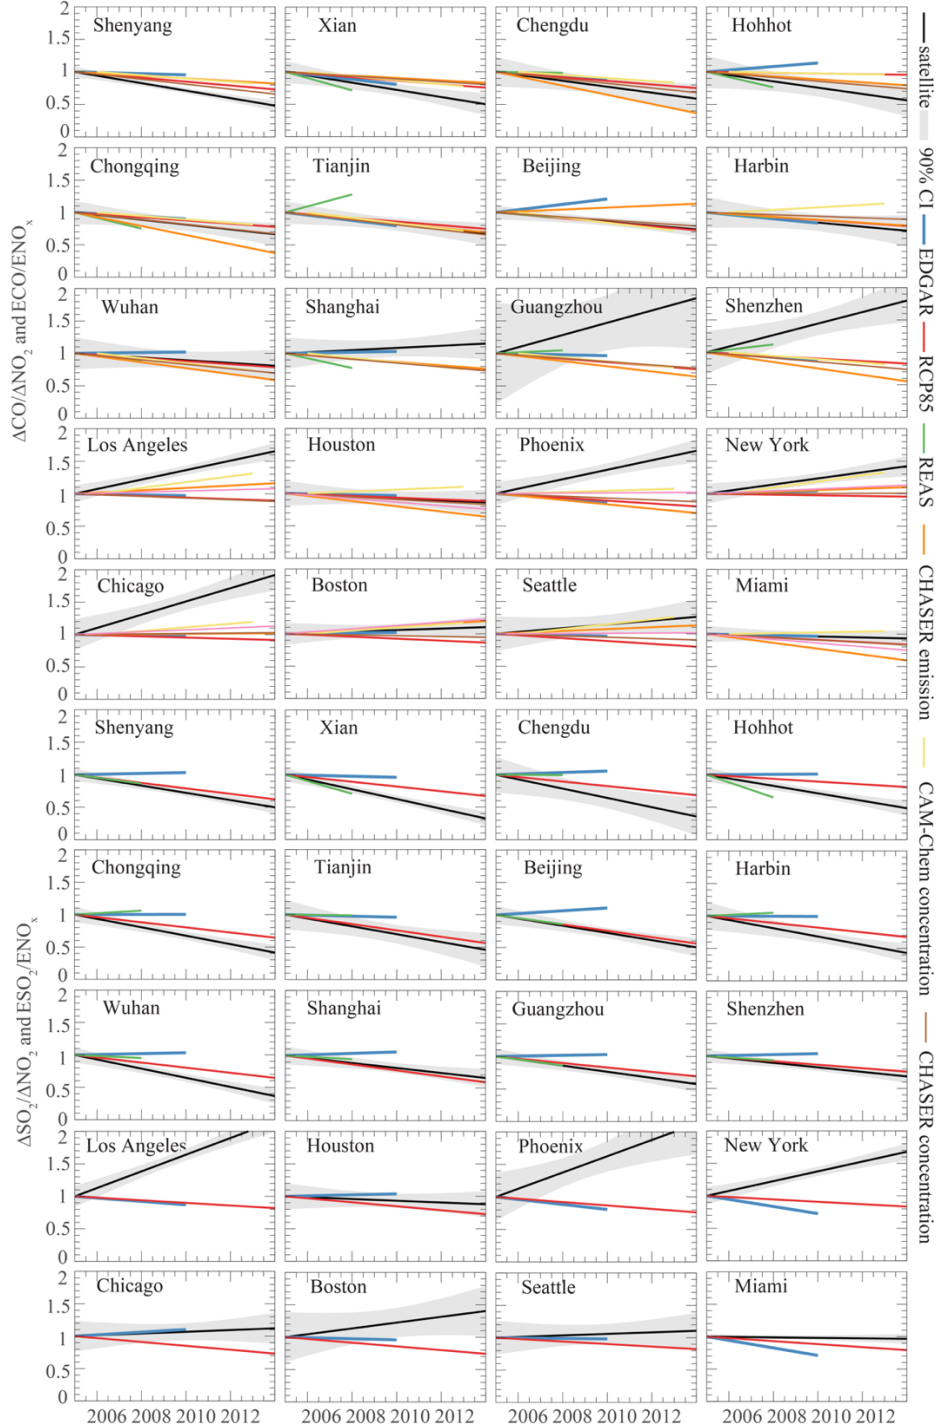
Tang et al., 2018


Fig. S1. Same as Figure 2 but for all the 12 Chinese cities and 8 U.S. cities.
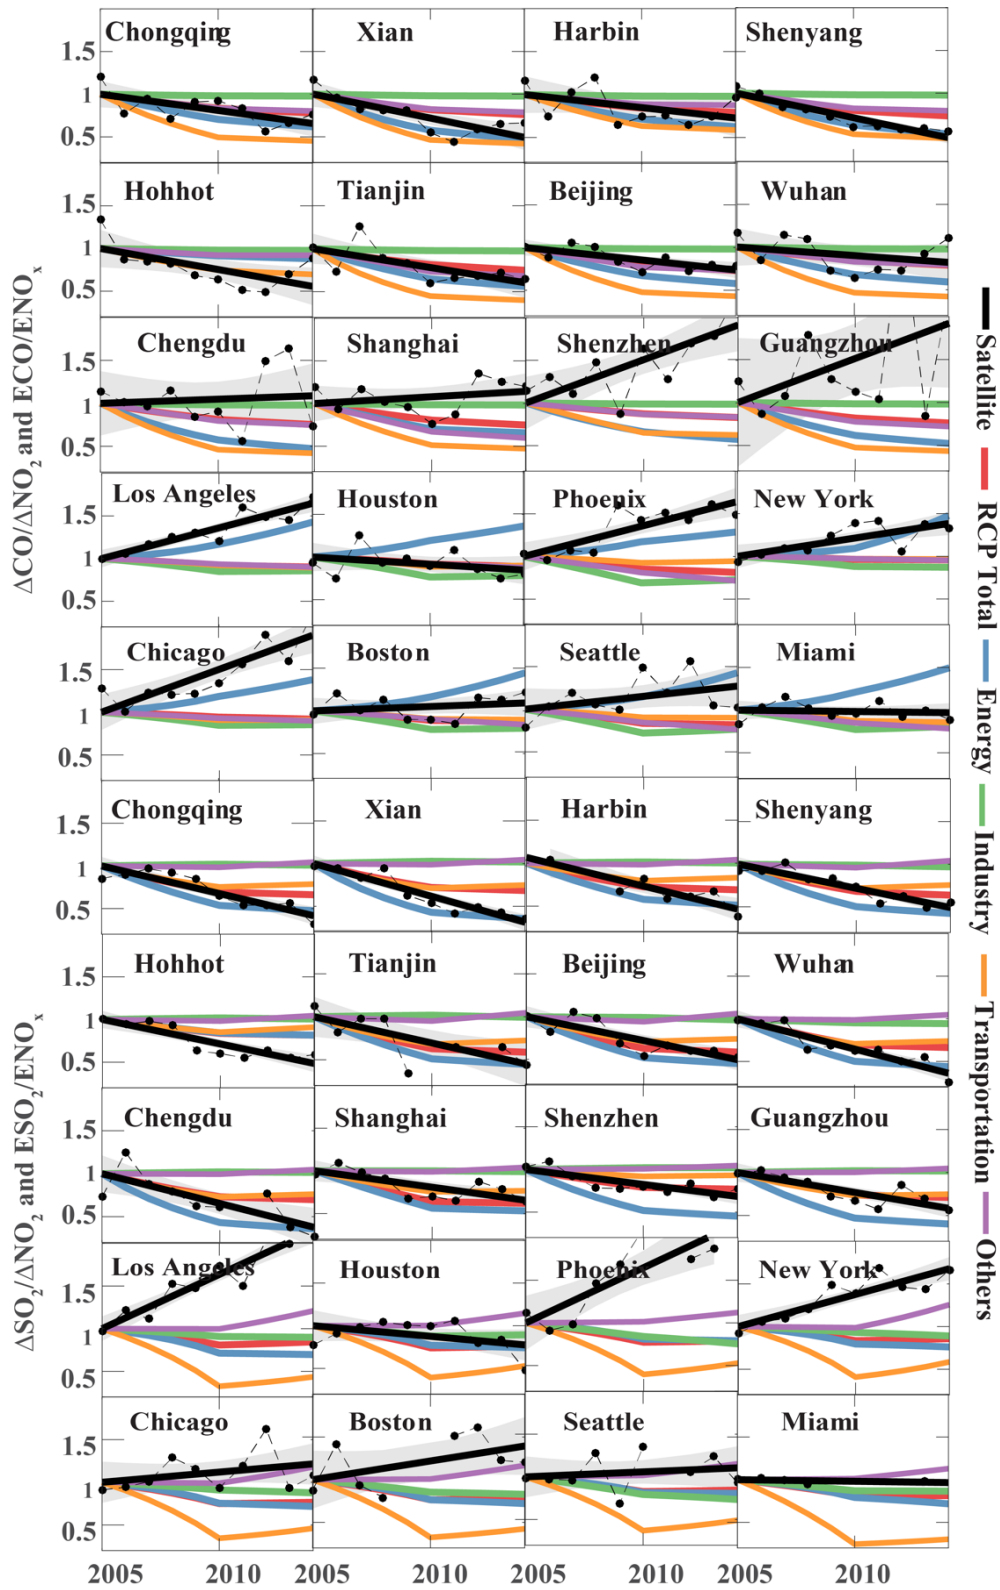

Fig. S2. Comparisons between satellite-based ratios and sectoral emission ratios from RCP85 in 2005-2014. Gray shade corresponds to the seasonal variability of the satellite-based ratios.
