

## ***Interactive comment on “Evaluation and comparison of MAIAC, DT and DB aerosol products over China” by Ning Liu et al.***

### **Anonymous Referee #2**

Received and published: 19 March 2019

This manuscript is well constructed and easily followed. I found several absences of "the" and "a" and it is better to use "AEROENT stations" to replace "AEROENT sites". I suggest the authors asking a native English speaker with a geography Ph.D. to thoroughly check the English.
