Received and published: 6 June 2018

Dear referees,

Thank you for your reviews and useful comments and suggestions. As you will see, we took into account all your comments when reviewing the new version. Some of the key comments were coincident in the reports from both referees, this pointing to the need of clarification and additional information. The comments were very valuable. We believe that these and the suggestions helped us improve the quality of the revised manuscript.

You will find attached as a supplement the detailed replies to queries and the description of how we implemented your suggestions in preparing this revised version.
