Suggested revisions of figures:

- *The text in all figures seems rather coarse. Is it possible to improve the resolution of the figures?*
- *Figure 4: please use the same axis labels as in Figure 3. You are currently using Altitude, altitude and height.*
- *Figure 5: Please unify axis labels for this figure as well.*
- *Figure 6: please unify the spacing of the grid lines.*
- *Figure 7: Please remove the figure title*

Following these suggestions, we have updated all figures to make them high-DPI, unified the axis labels and spacing of grid lines, and removed the figure title in Figure 7.
