

Response letter

[Atmospheric Chemistry and Physics, MS ID: acp-2018-53]

Title: Characteristics and mixing state of amine-containing particles at a rural site in the Pearl River Delta, China.

Comments to the Authors:

I am happy to accept your manuscript for publication in Atmospheric Chemistry and Physics.

Technical corrections:

line 411: Please change "count" to "counts".

Response: Thank you for your comments and contribution to our manuscript. We have revised the manuscript according to your comment, and the point-by-point response has been listed below. We appreciate your valuable and helpful comment and suggestion to our work and enable it to meet the high quality of the journal Atmos. Chem. Phys.

Anything about our paper, please feel free to contact me at limei2007@163.com

Best regards!
Sincerely yours

Mei Li

Response to the specific comment

Technical corrections: line 411: Please change "count" to "counts".

Response: Revision made. "Although the increase of amine-containing particle count mostly occurred at night" has been revised to "Although the increase of amine-containing particle counts mostly occurred at night" in line 411.
