

Interactive comment on “Chlorine Nitrate in the Atmosphere” by Thomas von Clarmann and Sören Johansson

M. J. Tang

mingjintang@gig.ac.cn

Received and published: 6 July 2018

The authors provided a nice overview of heterogeneous reactions of ClONO₂ in Section 5.2. May I draw their attentions to my work in which heterogeneous reactions of ClONO₂ with TiO₂ and SiO₂ aerosol particles were studied (Tang et al., 2016)? In addition, a previous study (Molina et al., 1997) explored heterogeneous reaction of ClONO₂ with aluminum oxide.

Molina, M. J., Molina, L. T., Zhang, R. Y., Meads, R. F., and Spencer, D. D.: The reaction of ClONO₂ with HCl on aluminum oxide, *Geophys. Res. Lett.*, 24, 1619–1622, 1997.
