I think this is an interesting paper. This paper did not mention a recent study by Wei et al., (2019) who did a comparison of 11 global monthly AOD products. I could not see it in the Table 1 of the current study? I think it would be useful to provide some comparison of the current study with Wei et al., 2019.

Wei, J., Peng, Y., Mahmood, R., Sun, L., and Guo, J.: Intercomparison in spatial distributions and temporal trends derived from multi-source satellite aerosol products, Atmos. Chem. Phys., 19, 7183–7207, <https://doi.org/10.5194/acp-19-7183-2019>, 2019.
