Dear Editor,

I would like to add a coauthor to this article who I forgot to include in the initial submission phase: Manon Rocco. She indeed contributed to this study by analyzing BVOCs, HCHO, NO_x and ozone measurements, and by revising the manuscript.

Here is her email address: rocco.manon@gmail.com.

Discussion paper

I would be grateful if you could include her as a coauthor for this article (her name and affiliation is in the new version of the manuscript, which I attach here as a supplement).

Thank you and best regards, Valentin.

Please also note the supplement to this comment:
