Received and published: 24 December 2019

We would like to thank the anonymous reviewer for the careful assessment of our submitted manuscript. We appreciate the willingness to review our manuscript, and the detailed comments provided, which draw our attention the ambiguities in the description of our observations and methodology, as well as to other shortcomings of our manuscript. In the revision of our manuscript, we have tried to address each point. Please find our detailed response to each of your points in the supplement (pdf).

Please also note the supplement to this comment:
