

Title: The effect of aerosol dynamics and gas-particle conversion on dry deposition of inorganic reactive nitrogen in a temperate forest

Authors: G. Katata et al.

Author response to editor's comments

Dear authors

Please polish the English writing for this paper with help of an English native speaker or profession service before it can be accepted for publication.

Response: Dear Leiming Zhang, thank you so much for comment. We attached the new version with English correction. We hope this is accepted for publication at ACP.
