Interactive comment

## Interactive comment on "The importance of the representation of air pollution emissions for the modeled distribution and radiative effects of black carbon in the Arctic" by Jacob Schacht et al.

Jacob Schacht et al.

schacht@tropos.de

Received and published: 31 May 2019

We would like to thank the reviewers for their time and constructive comments, and hope that we have responded satisfactorily to all the points raised. The answers can be found in the PDF that is attached as a supplement. The Authors' response and the changes in the revised manuscript are indicated by red and green text, respectively.

Please also note the supplement to this comment: https://www.atmos-chem-phys-discuss.net/acp-2019-71/acp-2019-71-AC1-supplement.pdf Printer-friendly version
