

Dear Dr Kourtchev,

Thank you for your comments and suggestions. We have taken them into account in the revised manuscript (March 31). We have added two corrections and a reference (Hecht et al., 2019).

The first one in the text line 169, page 6 and the second one in the supplementary material, Figure S9 (additional experimental results with different acquisition mass ranges as you suggested).

With these updates, we hope the manuscript will be suitable for publication in your Journal

Best regards,

Roland BENOIT
