

Interactive comment on “Airborne measurements and large-eddy simulations of small-scale Gravity Waves at the tropopause inversion layer over Scandinavia” by Sonja Gisinger et al.

Sonja Gisinger et al.

sonja.gisinger@dlr.de

Received and published: 14 July 2020

In the supplement (pdf) of the response to the comments to anonymous Referee #2, it says "Authors' response to the comments of the anonymous Referee #1" instead of "#2". This is a typo. The pdf indeed contains the response to the comments of Referee #2. Please be aware, that both pdfs #1 and #2 start with the same preamble/introduction.

Interactive comment on Atmos. Chem. Phys. Discuss., <https://doi.org/10.5194/acp-2020-121>, 2020.
