Atmospheric Chemistry and Physics Discussions

Interactive comment on "Emission factors for PM_{10} and PAHs from illegal burning of different types of municipal waste in households" *by* András Hoffer et al.

Roya Bahreini (Editor)

roya.bahreini@ucr.edu

Received and published: 4 November 2020

Dear Andras,

Thank you for providing your initial response to the reviewers' comments. Please submit a detailed, point by point response along with your revised manuscript. It will be very helpful if you use a different font (e.g., italics) for your response vs. the reviewers' comments. Your response file should also include the detailed changes that are made to the manuscript accordingly.

Please let me know if you have any questions.
