## Interactive comment on "Opinion: Cloud-phase climate feedback and the importance of ice-nucleating particles" by Benjamin J. Murray et al.

Benjamin J. Murray et al.

b.j.murray@leeds.ac.uk

Received and published: 7 December 2020

We thank Franz Conen for his comment on the role of precipitation releasing INP to the atmosphere.

We have added the following statement to section 2: "Also, INP emissions have been linked to environmental factors such as rain fall, hence a warmer wetter world may lead to enhanced INP emission rates from some terrestrial sources (Conen et al., 2017; Huffman et al., 2014; Hara et al., 2016)."
