This Supporting Information (SI) document includes 17 pages, 10 supplementary figures (pages S2 to S11) and 6 supplementary tables (pages S12 to S17).

18 **Figure S1.** Map of traffic monitoring sites with traffic mix data available.

19

Figure S2. Speed-dependent fleet-average emission factors for LDPVs and HDTs estimated by the EMBEV model. Speed correction is not applicable to BC emissions from LDPVs due to the lack of testing data.

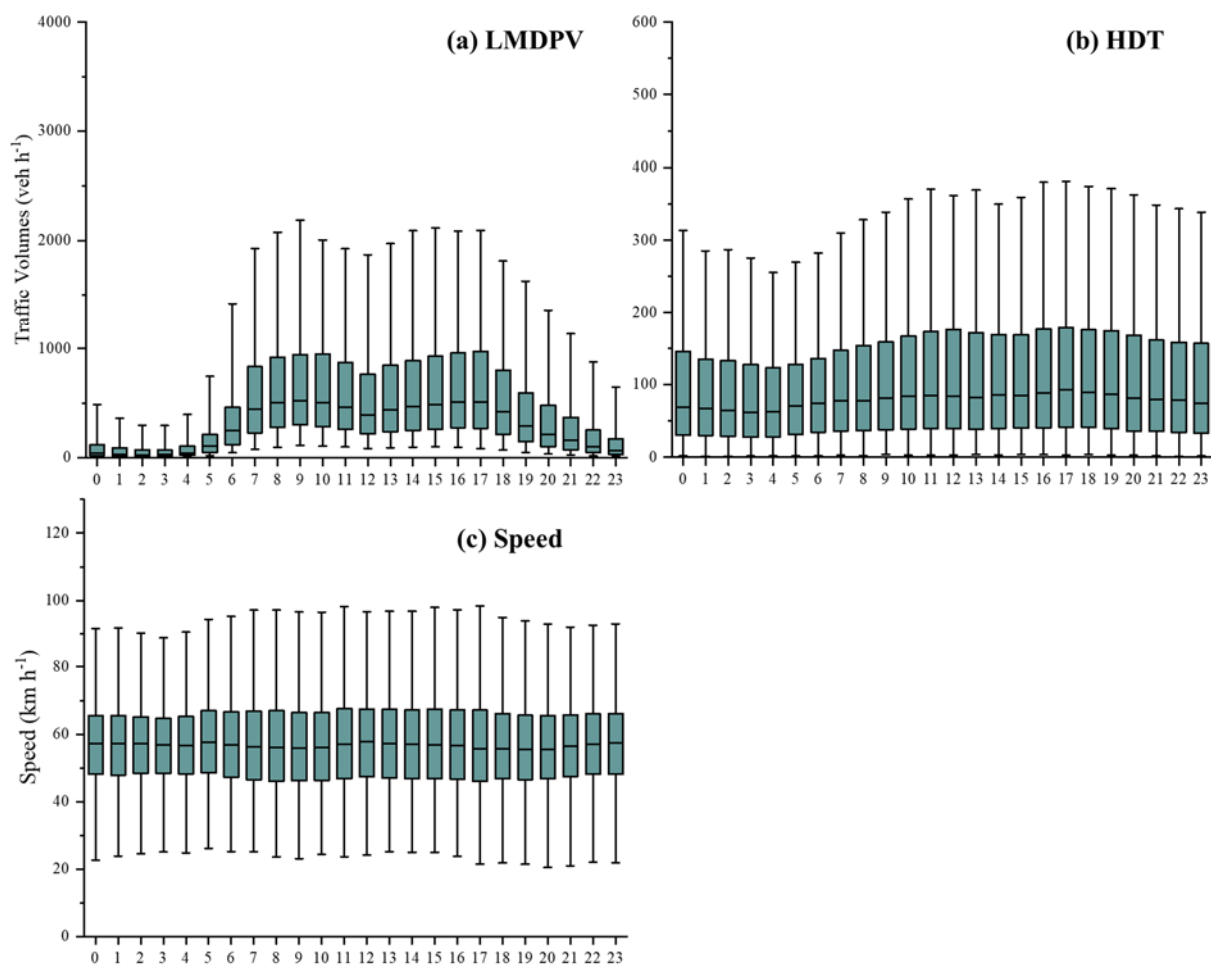

Figure S3. Box plot of traffic volumes by vehicle category and speed used to train the land use models.

27

28 **Figure S4.** Average diurnal fluctuations in hourly traffic activity by vehicle category of the BTH region during various traffic scenarios *S1* to *S3*

Figure S5. The proportion of each vehicle category accounting for the total traffic activity of (a) Beijing, (b) Tianjin, (c) Hebei, and (d) the overall region.

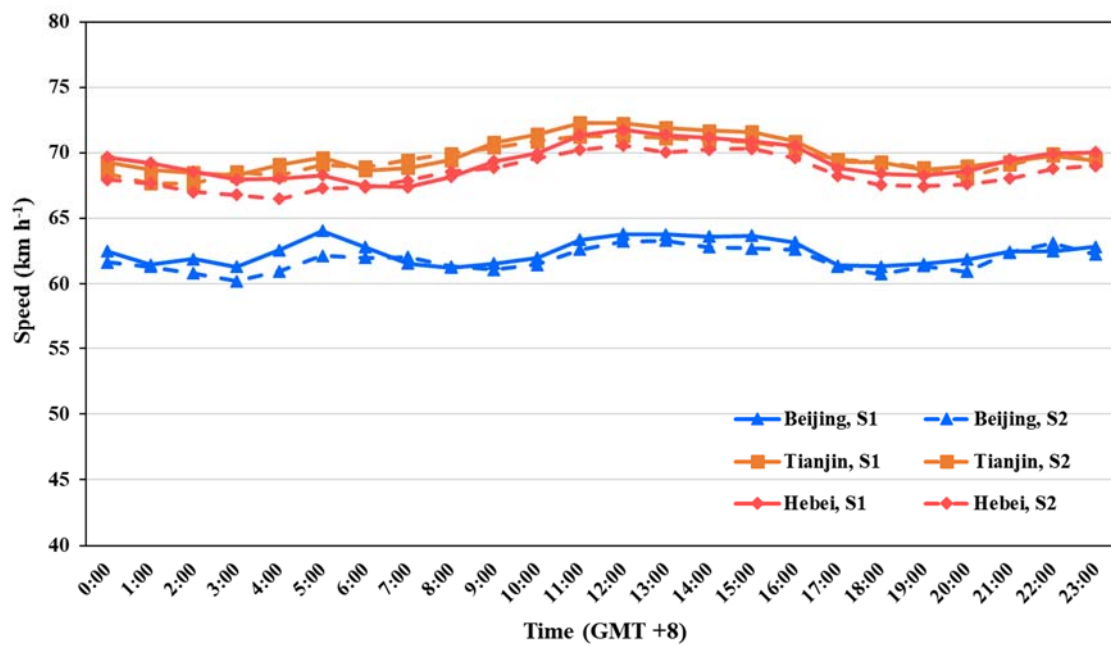

Figure S6. Average hourly speed by region under various traffic scenarios.

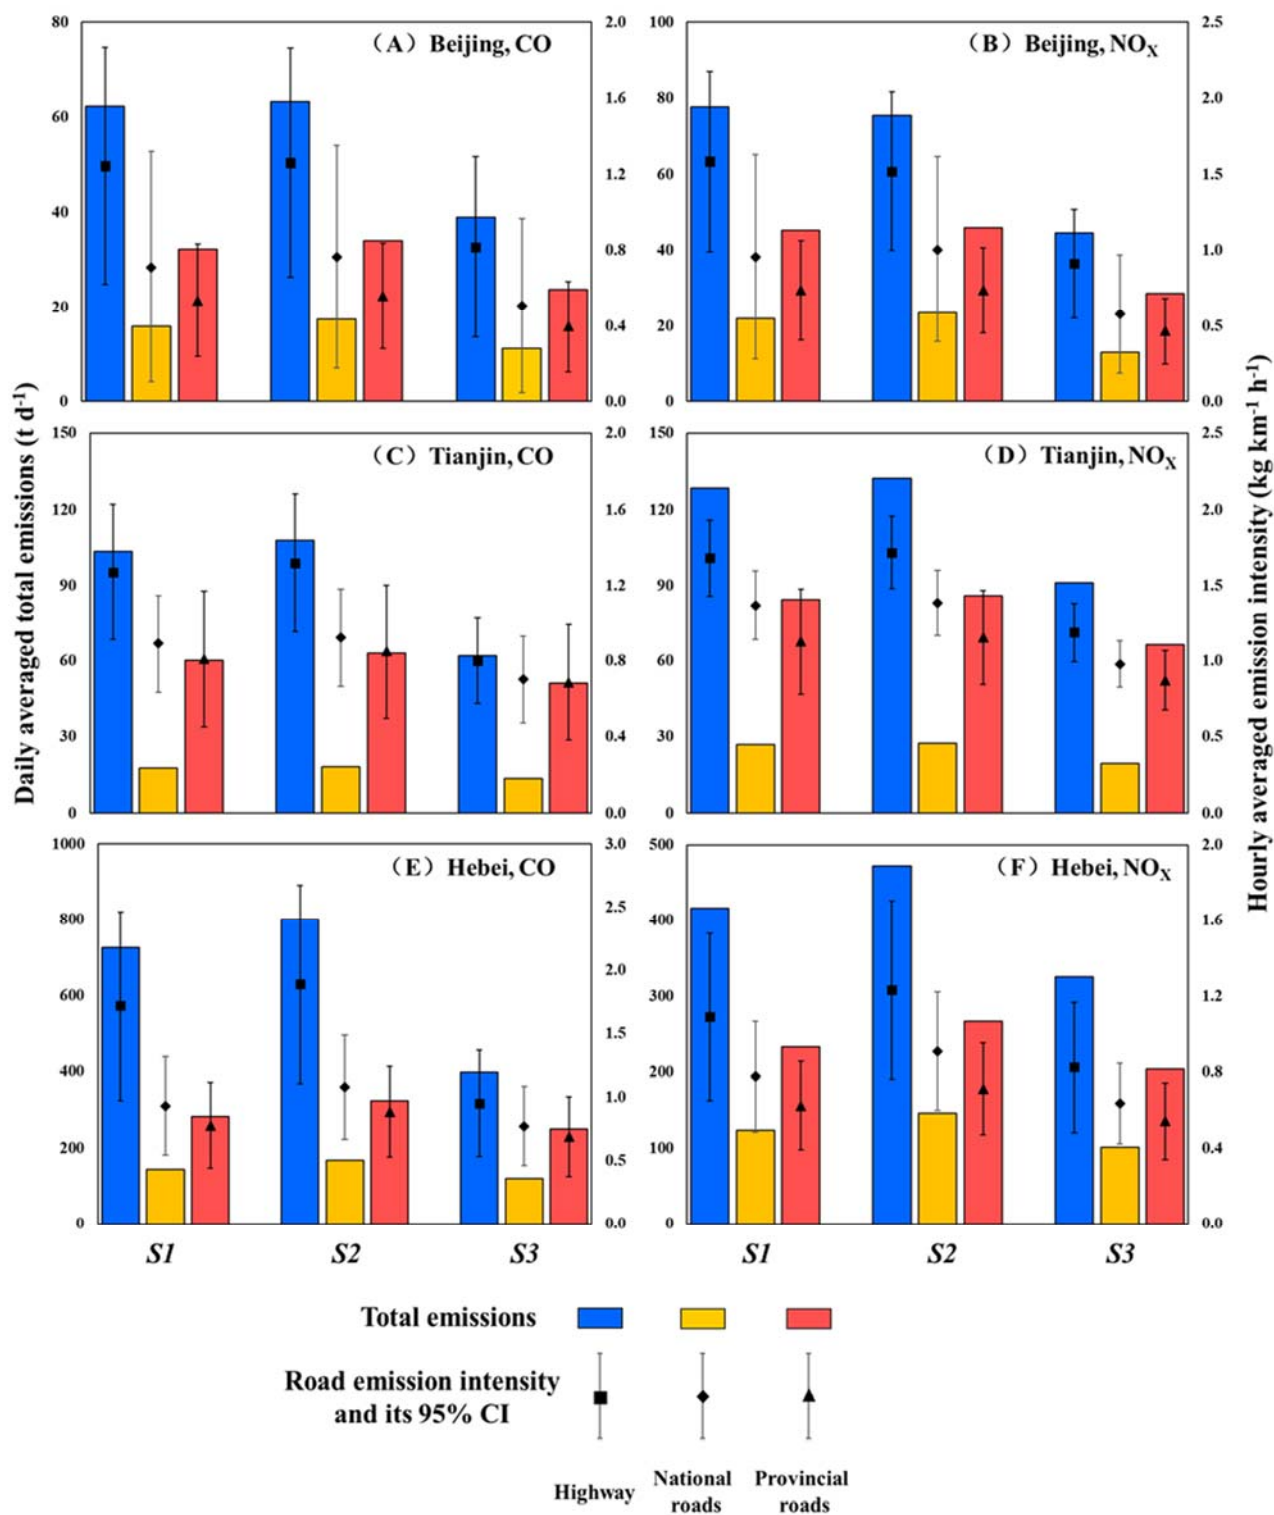

Figure S7. Estimated total emissions and emission intensity of CO and NO_x by region and road type under various traffic scenarios, S1 to S3.

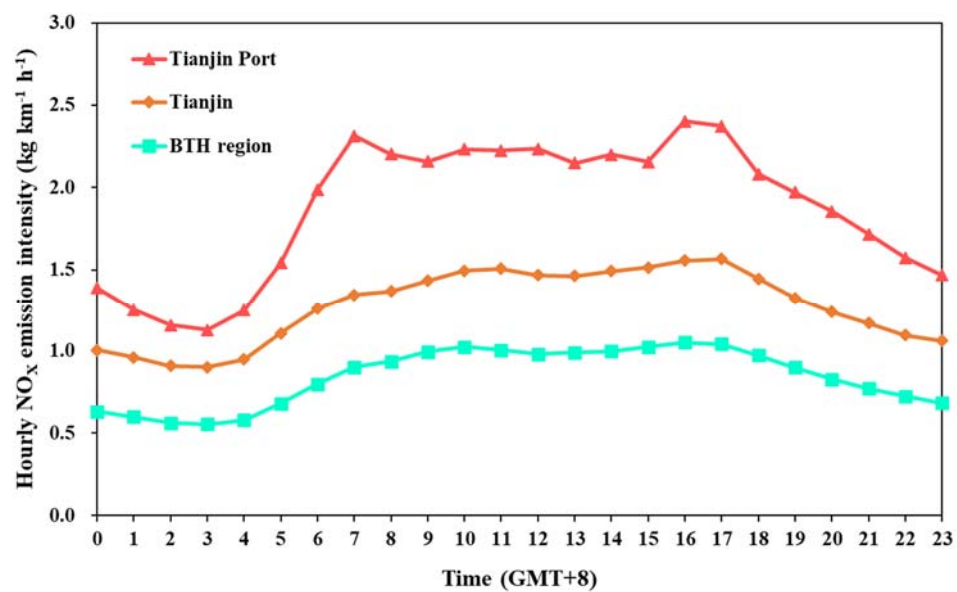

Figure S8. Hourly emission intensity of NO_x in the region of Tianjin Port, Tianjin and the BTH region.

43

44 **Figure S9.** Hourly traffic activity of LDPV (A) and HDT (B) and vehicle emissions of CO (C) and BC (D) by region from April 20th to April 27th,2017

Figure S10. Distribution of relative differences of CO and NO_x of M2, compared to M1.

48 **Supplementary Tables**

49 **Table S1.** Definition of road types

Road type	Description	Designed speed
Expressways	Inter-provincial roads, often constructed by the national highway administration	two thirds of the roads above 100 km/h
National highways	Inter-provincial roads, often constructed by the national highway administration	more than half of the roads below 80 km/h
Provincial highways	Inner-provincial roads, often constructed by the provincial highway administration	more than half of the roads below 80 km/h

50

51

52 **Table S2.** Definition and abbreviation of vehicle categories

Vehicle classification	Abbreviation	Description
Light-duty passenger vehicle	LDPV	Length \leq 3.5 m, PC ^a \leq 9
Medium-duty passenger vehicle	MDPV	Length < 6 m, 9 < PC \leq 20
Heavy-duty passenger vehicle	HDPV	Length \geq 6 m, PC > 20
Light-Duty Truck	LDT	Length < 6 m, GVW ^b \leq 4500 kg
Medium-Duty Truck	MDT	Length \geq 6 m, 4500 < GVW \leq 12000 kg
Heavy-Duty Truck ^c	HDT	GVW > 12000 kg ^d

53 Notes: ^a Passenger capacity; ^b Gross vehicle weight; ^c The HDTs are further classified into local HDTs and non-local HDTs
54 according to the registration place; ^d Emission factor for local HDTs are weighted by HDT2 and HDT3 according to their
55 registration number and annual VKT ([Zhang et al., 2014](#)).

56

57 **Table S3.** Summary of data used to train LURF and GPR

Category	Potential variables	Variable code
<i>Land-use Data</i>		
Land use (total area [km ²] / buffer area)	Urban land	urbanland
	Crop land	cropland
	Grass land	grassland
	Bare lands	bareland
Further	Transit	POI_transit
	Restaurant	POI_restaurant
	Office	POI_office
	Mall	POI_mall
	Hotel	POI_hotel
	Education	POI_education
	Bank	POI_bank
	Recreation	POI_recreation
	Touristic	POI_touristic
Distance (Euclidean [m])	Airport	D_airport
	Port	D_port
	Freight	D_freight
	CBD	D_CBD
Population density (total population / buffer area)	Population density	pop
<i>Road Information Data</i>		
Road density (total length [km] / buffer area)	Highways	rd00
	National roads	rd01
	Province roads	rd03
Value extracted at point	Location	Lon/Lat
	Administration	Province/City/County
	Road type	rdtype
	Number of road lane	LaneNum
	Designed road speed	DeSpeed

58 Note: a Buffer radii 50 m, 100 m, 200 m, 300 m, 500 m, 1000 m, 2000 m, 5000 m

59

60 **Table S4.** Cross-validated of the LURF and GPR models in predicting hourly-averaged traffic profiles under *SI*.

Traffic profiles	Pearson's R		MAPE		RMSE	
	LURF	GPR	LURF	GPR	LURF	GPR
LMDPV	0.73±0.08	0.51±0.11	1.03±0.30	1.27±0.60	258±133	318±163
HDPV	0.48±0.13	0.38±0.14	1.53±0.19	1.67±0.31	14±4	8±6
LDT	0.54±0.11	0.34±0.11	1.19±0.23	1.42±0.31	54±30	36±22
MDT	0.61±0.03	0.48±0.03	1.37±0.14	1.55±0.18	13±4	27±9
HDT	0.55±0.02	0.45±0.03	1.52±0.14	1.76±0.17	63±13	12±11
Speed	0.71±0.03	0.70±0.03	0.16±0.01	0.17±0.01	1.13±0.80	0.48±0.36

61 Note: The units of RMSE for traffic volumes and speed are in veh h⁻¹ and km h⁻¹, respectively.

62

63 **Table S5.** Top 10 important variables for the LURF predicting the traffic characteristic

LMDPV	HDPV	LDT	MDT	HDT	Speed
City# (5.2)		pop_5000m* (5.8)	County# (2.6)		
POI_office_5000m* (6.2)	County# (2.7)	pop_2000m* (10.7)	Province# (2.7)	County# (1)	rdtype# (1.0)
urbanland_5000m* (7.5)	City# (5.5)	Admin# (12.8)	City# (3.7)	rdtype# (2.0)	City# (2.4)
pop_5000m* (9.8)	LaneNum# (9.3)	pop_1000m* (14.7)	POI_office_5000m* (4.5)	LaneNum# (3.7)	County# (3.5)
rdtype# (10.9)	rdtype# (12)	LaneNum# (18.8)	rdtype# (8.1)	City# (5.9)	rd00_50m# (3.6)
County# (11.5)	urbanland_5000m* (20.7)	urbanland_5000m* (24.4)	urbanland_5000m* (9.1)	Lat# (7.7)	rd00_100m# (4.5)
pop_2000m* (13)	DeSpeed# (25.6)	City# (26.9)	urbanland_2000m* (9.7)	DeSpeed# (8.3)	rd00_200m# (7.3)
LaneNum# (13.7)	Province# (25.9)	POI_mall_5000m* (27.9)	LaneNum# (14.1)	urbanladn_5000m* (8.6)	Province# (9)
POI_transit_5000m* (14.8)	pop_5000m* (27.3)	POI_office_5000m* (28.0)	pop_5000m* (15)	rd00_5000m# (13.5)	DeSpeed# (9.5)
pop_1000m* (15.9)	rd00_50m# (31.9)	POI_restaurant_5000m* (28.6)	POI_transit_5000m* (15.6)	cropland_1000m* (16.8)	LaneNum# (10.3)
	Lat# (33.4)			rd00_2000m# (20.1)	rd00_300m# (12.9)

64 Note: The number in the bracket is the average hourly importance ranks of the variables. * variables representing the land-use information; # variables representing the road
65 information.

66

67 **Table S6.** The VKT allocation weights by region and road type

		LMDPV	HDPV	LDT	MDT	HDT
Beijing	Expressway	56%	51%	53%	55%	55%
	National-level highways	15%	15%	16%	15%	15%
	Provincial-level highways	29%	34%	31%	30%	30%
Tianjin	Expressway	48%	49%	43%	48%	53%
	National-level highways	11%	12%	11%	12%	12%
	Provincial-level highways	41%	39%	45%	40%	35%
Hebei	Expressway	48%	46%	39%	46%	51%
	National-level highways	17%	18%	19%	18%	18%
	Provincial-level highways	35%	36%	42%	36%	31%
