Supplements

Figure S1. Topography and location of the sampling site (a) location of Nanjing; (b) location of surrounding cities of Nanjing; and (c) location of the sampling site at Nanjing University. The map in (a) is from MeteoInfo developed by Yaqiang Wang; the maps in (b) and (c) are reproduced from Google Maps (2021).

Figure S2. Temporal trend of the particle count of $^{86}(\text{C}_2\text{H}_5)_2\text{NCH}_2^+$-containing particles during the sampling period.
