Comments to the author:

A few corrections are still needed in the Supplement before the manuscript can be published in ACP:

Line 67: Replace "verse the theoretical" by "versus the theoretical".

Line 135: Replace "and the Generalized" by "and Generalized".

Line 169: Replace "with ARMA" by "with the ARMA".

Lines 225-226: Replace "Note that residual unit of hopanes and levoglucosan are ng/m³, while those of the" by "Note that the residual unit for hopanes and levoglucosan is ng/m³, while that for the".

Table S3, in the unit column for Si and V: Replace "μgC" by "μg".

Authors' Response:

We thank the editor for the careful reading. We have taken the suggestions and made the revisions accordingly in the revised supporting document. Note we did not provide a point-by-point response, as all the suggested revisions have been made without any exceptions. We also made some additional edits to improve clarity or to correct grammatical errors. These edits are also tracked and marked in blue.

We have uploaded a version of the revised supporting document with all the text changes marked in blue.
