
Responses to Editor's comments

We appreciate the Editor's comments of our manuscript entitled "*Simulating the radiative forcing of oceanic dimethylsulfide (DMS) in Asia based on Machine learning estimates*". To be clear, all the responses are in green background in the below.

Comments to the author:

1. Thank you very much for the revision of your manuscript which can be now accepted for publication in ACP after a few small corrections (lines refer to the track changes pdf):
 - 1) line 26: is equivalent to
 - 2) line 87: replace ' combined with' by ' using '
 - 3) line 159: efficient ... tuning, is scalable,...
 - 4) line 196: in Table S2
 - 5) line 200: in spring (remove the)

Please profit from this request to read once again your manuscript for potential small corrections needed.

Answer:

Thanks for the correction. All the requests have been revised accordingly, and we have checked all the grammar and wording issues throughout the manuscript.
