We thank the reviewer for the constructive feedback in this third round of reviews. Below we copied the reviewer's comment in black and added our response in blue.

1 Response to referee 2 (report #1)

The reviewer thanks the authors for clarifying the scope of their work. The points that the reviewer mentions relating to the
5 limitations of the study should be included in the manuscript.

We have now added section 3.5, covering limitations and challenges of our study, to the manuscript.
